

Contents

In This Issue

- 6** **Editor's Corner**
By Marc S. Cheves, LS
- 10** **Point to Point: Articulating a Survey**
By Joel Leininger, LS
Exploring the essential components of our reports.
- 48** **Software Review: Autodesk Civil 3D 2005**
By Joe Bell, LS

- 54** **GIS Matters: GIS and the Surveyor's Bottom Line**
By Rj Zimmer, LS
As the availability of GIS data grows, opportunities increase for surveyors to save time and money and to communicate more effectively with clients and staff.
- 58** **Reconnaissance: The Surveyor's Responsibility in Boundary Surveys and Disputes**
By Gary Kent, LS
A response to Leininger's Fall 2004 column regarding a surveyor's duties.

- 62** **Book Marks**
By Pat Toscano, LS
Epic Wanderer—David Thompson & the Mapping of the Canadian West by D'Arcy Jenish
- 75** **Test Yourself: Where's the Line?**
By Dr. Richard L. Elgin, LS, PE
- 75** **Advertisers' Directory**
- 77** **Classified Ads**

Nebraska Sandhills Region
Photo by Jerry Penry

On the Cover:

- 12** **Monuments of Sand**
By Jerry Penry, LS
When it came to the GLO's establishment of permanent monuments, some lessons just had to be learned the "hard" way.

Features

- 22** **VROOM!**
By Paul Moody, LS
Surveying instruments provide precise distance measurements in mega-horsepower tractor pulling contest.
- 26** **Remotely-Sensed Data Used in Land Development**
By Marc S. Cheves, LS
In this unique application, time and money are being saved by using satellite data to supplement aerial orthophotography for the determination of pervious and impervious land cover.
- 32** **Laser Scanning for Everyday Survey Work**
By Martin C. Dunn, LS
How laser scanning technology progressed to become a profitable tool for one Motor City firm.
- 42** **What's in Your Toolbox?**
By Thomas A. Liuzzo, LS
A longtime user of Maptech's Terrain Navigator Pro tells why he's hooked.
- 67** **Nothing is as Practicable as Sound Theory! Really?**
By Janhein Loedeman
An "outsider's" view on Ken Alder's book, *The Measure of All Things*.
