## On the Cover

On the way to a tight squeeze under the San Francisco Bay Bridge, folded container cranes make their way under the Golden Gate Bridge in San Francisco.

## Features

- 10** **Big Ship, Tight Squeeze**  
Careful preparation and a mix of technology clear the way for the delivery of massive container cranes to the Port of Oakland.  
*By Brad Longstreet and Dave Murtha, LS*
- 20** **Herr Niebuhr and the Remarkable Traverse**  
Nearly forgotten and partially translated journals retrieved from a Copenhagen museum reveal the tale of the sole survivor—a German surveyor—of the first scientific expedition to Arabia.  
*By C. Barton Crattie, LS, CFM*
- 28** **The Largest Non-BLM Cadastral Retracement in History**  
The DOT of Maricopa County, Arizona, the 14th largest county in the country, surveys more than 14,000 PLSS corners to increase the geodetic layer accuracy of the county's GIS.  
*Brian Dalager, LS*
- 64** **Survey Affidavit of No Change**  
Many sign it to save a buck, but sellers should be made aware of the potential liability they incur.  
*By Christopher M. Ernst, LS*

## Departments

- 50** **Model Behavior: The How-To Guide to Successful Surface Modeling, Part 4**  
How to modify input data to form a surface more reflective of the intent.  
*By Kenneth A. Crawford, PE*
- 44** **GIS Matters: The Power of Place**  
An overview of GIS databases, how they become spatial, and why the spatial component is so powerful.  
*By Rj Zimmer, LS*

## In This Issue

- 6** **Guest Editorial: Aphorisms for the Surveyor**  
*By Dr. Richard L. Elgin, LS, PE*
- 58** **Vantage Point: Beating Axles into Plowshares**  
*By Wendy Lathrop, LS, CFM*
- 60** **Advertisers' Directory**
- 61** **MarketPlace**
